

Cloverdale Paint

 Canadian Owned & Operated

Horizon

Premium Architectural Finishes

Cloverdale Paint's Horizon line is a premium interior environmentally responsible paint with minimum odour and no residual "after smell" compared to regular paints.

- Zero VOC Ultra Low Formula* is enviro-friendly with no residual or lingering odour or fumes after painting is completed
- Use in areas where occupants may be sensitive to paint fumes and vapours even after the coating has dried
- Mildew resistant with anti-microbial agents which provide continuous protection against bacteria, mould and mildew

*Zero VOC product: Zero VOC means "No organic solvents added." Trace amounts of VOC may be present as residual components of other ingredients, VOC levels may increase significantly depending on the colour choice and colourant used; other additives may increase VOC emissions.

Horizon

Premium Architectural Finishes

Cloverdale Paint's Horizon line is a premium, environmentally responsible paint with virtually no odour or residual "after smell". The Zero VOC* formula significantly reduces polluting vapours and odours released into the air. Intended uses include schools, hospitals, seniors facilities, nurseries, public buildings or where occupants may be sensitive to paint fumes.

A safer paint for her environment. No residual "after smell". Ideal for areas where occupants may be sensitive to paint smells and irritating fumes.

The Horizon line is designed to meet "Green Construction" specifications. It is ideal for use where architects and specifiers require products which have less impact on the environment. Horizon is the preferred choice of home owners and professionals where sensitivity to paint fumes is a concern.

*Zero VOC product: Zero VOC means "No organic solvents added." Trace amounts of VOC may be present as residual components of other ingredients, VOC levels may increase significantly depending on the colour choice and colourant used; other additives may increase VOC emissions.

Exceeds MPI (Master Painter Institute) quality specifications.
